

AssetHealth COMMUNITY

People retain 90% of what they teach others. AssetHealth offers a customized online community, linked with the AssetHealth courses. The community is designed to offer employees a point of focused ongoing human interaction, shared individual health-related experiences and health management efforts. The community interaction and dialogue are essential points of adopted responsibility that makes active health culture more visible and meaningful within the organization.

Health-Centric Popular Culture

The AssetHealth online community can be tailored to include:

- Testimonials from employee successes highlighting what works well and what does not work regarding maintaining and improving health.
- Videos and other resources to help educate employees to be better managers of healthcare and improved good health.
- A place where senior leadership can set the tone and highlight health-centric activities and developments within the organization.
- Employer-targeted content and newsletter articles.
- Auxiliary resources, activities and learning

tutorials connected with the AssetHealth courses on selected topics.

- Integration with community health resources, primary care doctors and other healthcare providers (specialists, inpatient, outpatient, urgent care and rehabilitation facilities.)
- Most importantly, an opportunity for employees to share their own story and efforts to take direct and active responsibility; shared intelligence.

The AssetHealth community provides a unique opportunity to enhance popular health culture and positive, productive, focused news.
